

*Basketball, Volleyball, Tennis, Pickleball and more!*

## GMS CONSTRUCTION NOW OFFERS OUTDOOR SPORTS COURTS!

Outdoor sports courts are ideal for creating great spaces for pickup games with friends or developing athletes. They are enjoyed year-round, and are virtually maintenance-free. Rain quickly drains through, removing the need for sweeping or sponging. Just wait a few minutes, jump on and start playing. Water or moisture won't damage court surfaces. Our outdoor sports courts are ideal for basketball, volleyball, tennis,

pickleball and are equipped with a high-flex, suspension system. This understructure generates superior shock absorption and added safety during play.

*GMS is ready to help you through the entire process – from designing and excavating, to pouring a concrete slab or building a retaining wall, to final court installation. We can have you sporting a new outdoor court in no time!*
