

*Stamped concrete is beautiful, affordable and durable!*

## STAMP OUT BORING CONCRETE!

Stamped concrete is concrete that is patterned and/or textured or embossed to resemble brick, slate, flagstone, stone, tile, wood, and various other patterns and textures. Stamped concrete is commonly used for patios, sidewalks, driveways, pool decks, and interior flooring. The ability of stamped concrete to resemble other building materials makes stamped concrete a less expensive and longer-lasting alternative to using authentic materials such as stone, slate or brick.

*Properly done, stamped concrete is an affordable way to add beauty and lasting value to your home.*

***Let GMS Construction show you how it's done!***
